Solar Panels and Green energy systems

Powerhouse Distributions has launched a reliable, high performance and high quality range of

- Solar panels
- Solar charge controllers (MPPT)
- solar water pumps
- Wind turbines
- Deep cycle (Solar) batteries

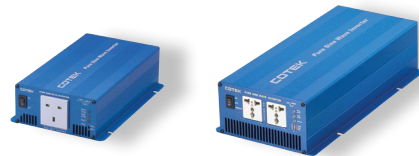

Solar in Southern Africa

In the past few years, solar systems in the southern african region and infact most of Africa has grown at a tremendous rate, We at PHD and be at the forefront of the renewable enegy sector, that is why we offer the best solar equipment.

Solar Panel

PHD offers a range of solar panels from 50watts up to 200Watts. We offer 12 and 24Volt solar panels.

Inverters

Powerhouse only distributes the highest quality equipment and our inverters are the best in the market.

Solar charge controllers

PHD offers a range of solar charge controllers from AEC, it allows your solar panels to operate at their optimum power level, reducing power loss.
